# Horizontal Axis Wind Turbines - Wholesale Prices

1. Payment term :100% in advance. FOB Factory (Freight Quoted)
2. Minimal Quantity: 2 Sets
3. Free stand tower - Special corrosion protection, tubular steel independent tower, tilt-up, installation without crane.
4. Wind generator body includes: Nose Cone, Blades\*3Pcs, Hub, Generator, Rotor, Tail Rod, Tail Vane; Tower & Accessory includes: Mast (Tower), Base Plate, Bolts, Cable etc.
5. Higher towers can be ordered specially.
6. The Wind Turbine Power Off-grid System is composed of Wind Turbine body, Tower & Accessories, Controller, Inverter (UL Inverter Available - Quoted). We suggest you buy batteries from local market.
7. Specification of each equipment of the wind power system depends on Voltage, Power, Capacity, Frequency, etc. Prices of matching equipment can be quoted separately.
8. Packing: Crates & Cartons.
9. Warranty: Two years.
10. Intelligent battery charging and discharging control, over charging and over discharging protection, battery capacity detection, yawing and brake control .
11. 10KW and 20KW tower have maintenance flatplate
