

What Eco-\$mart Customers Are Saying:

Esri has been doing business with Eco-\$mart for a couple of years now and the service and products offered from them keep getting better. We have saved thousands of dollars on utility bills by implementing just a portion of Eco-\$mart's products and in doing so we are confident that we are doing our share to help make the world a better place. Out of the hundreds of items that we have purchased through Eco-\$mart we have had two pieces go bad and the staff at Eco-\$mart jumped right in and made it right. Everything about this company I would recommend to colleagues and friends.

I am very pleased with my first purchase from Eco-\$mart. I received the professional guidance I was seeking and the products suggested worked seamlessly. My customers were very happy as well, so I will be a return customer. Thanks

Jason Hanshaw
Hanshaw Electric
Electrical Contractor

My experience with Eco-\$mart has always been top notch service and top notch product. Matt is always ready to go the extra mile to make sure the product is on time and affordable. The thing that we find to be the most helpful is if there is an issue, it is resolved quickly. Have Lights Will Travel is a company that is proud to work along companies like Eco-\$mart for quality LED products.

Thanks,

Tim Fannin
Have Lights Will Travel

For our early education center, finding partners who could provide environmentally safe products for our children was key to creating an outdoor natural learning environment. Matt and his team at Eco-\$mart provided great products that fit our budget but more importantly provided a great playscape for our children. Our experience in working with Matt on our outdoor learning environment has extended our partnership to several other projects and in each Eco-\$mart has successfully delivered.

Derek Cummings
Executive Director
Creation Kids Village

The County has found that Eco-\$mart is a good source for that existing fixture housing with sufficient remaining life and you are wanting to retrofit the light source to an energy efficient product, and lower the cost to maintain the fixture over time. The same can be said for Turtle Lighting compliance and solutions for changing the light bulb for compliance but not the whole fixture.

The company will take the time to research the best fit and offer solutions which was something they did for our North Port Library parking lot, and Nokomis Beach Plaza lighting and where the County acted on Eco-\$mart's solutions using their products.

William Martin, Operational Manager
Sarasota County Facilities

Thanks to Eco-\$mart features, our homes have utility bills that are 60 to 70% lower than a standard home.
Mike Boyce, President, Grandview Homes

Monthly energy savings from Eco-\$mart solar systems more than cover the extra finance costs, so we spend less money every month!

Dr. Beth Brown, Director
West Coast Veterinary Clinic

Eco-\$mart has been instrumental in helping us change out our bulbs to LEDS in our 24 properties. Fast Service, Fast Response. Thank you!

At your service,
Kay Brown
Administrative Assistant, San Jose CA FM Group, The Church of Jesus Christ of Latter-day Saints

In today's business it is very hard to find someone who will do just what they say they will. Eco-\$mart is one of those businesses.

From the first call to them they have been a pleasure to work with. They also have been very knowledgeable about many cost saving ideas for our business.

I would highly recommend them to anyone looking to save money with their home or business needs.

My projects range from single family homes to million dollar buildings - Eco-\$mart can help save me money on all of them.

Richard Mulvany
R & S Contracting, LLC

"I have been doing business with Matt and Eco-\$mart for a number of years now and couldn't be more satisfied with the service and the products. Eco-\$mart's LED products have been an easy sell in our market and Matt makes the ordering process smooth and hassle free. I would and do recommend Eco-\$mart LED products without hesitation."

As a Florida Certified Building Contractor I have installed many brands of windows over the years - Pella, PGT and Jeldwyn, to name a few. They all make good products but I have settled on Custom Window Systems as my personal favorite. They make a great product and the few problems I have run into have been quickly handled by their customer service.

Thank you for your help and competitive pricing over the years.
Sincerely,
Craig Weaver, G.C.

We have used Eco-smart.com for multiple different energy LED lighting upgrades. Their products have been very versatile for different applications, from a natatorium to exterior flood fixtures. As we get more LED requests, we will be using Eco-smart.com again.

Thanks,

Collins Young
NCS

Thanks so much Matt. I really appreciate all your time and attention, especially for such a small order. You've been very kind and helpful. Cal and I got the last two lights in, and they went in super easy and look great. Thanks so much for everything and if we need anything in the future rest assured we'll be in touch.

All the best this Holiday season,
Joe O'Malley

The lights that we recently replaced with LED lamps are up and running. I have checked them personally and I am very satisfied with the results.

Thank you
