Sport Mat Color Options

Custom Design:

By using our water cutter technology we are able to create a rubber floor that is both functional and visually appealing, achieving looks that are bold and daring, or subtle and refined. Utilize your valuable floor space by displaying company logos or brand elements throughout a facility. Write a message to customers in a strategic location or create play and learning areas for children. This technology also gives the ability to clearly mark exits or draw attention to merchandise. Bring your imagination to life – the possibilities are endless.

Custom Color Mixing

Custom Color Match Service:

- Available for square cut and interlocking tiles.
- Create your own custom floor colors. The following colors are available for custom design:

Contact your sales rep for more information.

Note: Please select colors based on actual samples.

Interlocking System - Loose Lay Flooring

CNC water jet equipment creates our tight fitting, precision cut interlocking tiles, resulting in a seamless, unified look for indoor spaces. These fully reversible tiles double the life of your floor and installation costs are reduced because adhesives are not required.

*Square cut tiles are also available for glue down applications where required

eco-rubber

Paver Colors

Eco-Rubber Impact Absorbing Paver is formulated from a combination of 100% post-consumer recycled black SBR (styrene butadiene rubber). Pigmented SBR, or EPDM (ethylene propylene diene monomer) rubber and polyurethane are homogeneously mixed throughout the entire product. The color will last far longer than laminated or surface wear products.
